

GENOVA FILTRI®

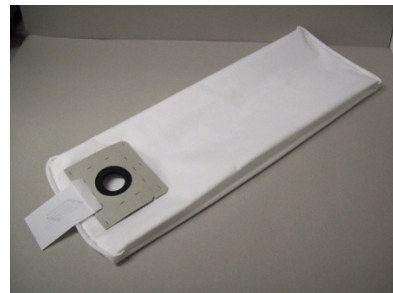

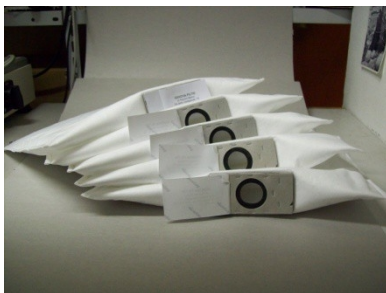

ITALIAN FILTER BAGS FACTORY

NOT ORIGINAL COMPATIBLE FOR DEI ASPIRATORS

DENTAL WORKSHOPS

January 2022

Dear Sir / Madam,

We inform you that our company produces non-original filter bags entirely in Italy compatible for almost all brands of aspirators used in dental laboratories.

These are composed of several layers of latest generation microperforated fabric with very high filtering capacity and thanks to the welding of their perimeter they guarantee excellent dust retention.

The direct sale from the producer to the final user is part of our commercial logic.

We produce: - filter bags for the drawers of the suction benches,

- filter bags for finishing furniture (plaster box type),

- filter bags for cleaners / polishers,

- filter bags for bin vacuum cleaners connected to sandblasters or model trimmers

- filter bags for vacuum cleaners connected to cad cam milling machines

WE PRODUCE NON ORIGINAL COMPATIBLE FILTER BAGS:

FOR AMANN GIRRBACH	PAG. 1
